THE POPE RALLIES.

Early Wednesday Morning His Condition Was No Worse Than on Monday.

SUFFERED SPELLS OF DELIRIUM.

Two Hours After Making All Preperations For Death the Pontiff Got Out of Bed.

Unsatisfied With This Exhibition of Vitality He Transacted Private Business and Received Four Cardinals in Audience.

Rome, July 15.—Another remarkable raily in Pope Leo's condition occurred Tuesday afternoon after a morning in the course of which his holiness suffered spelis of delirium and at times his strength sank to the lowest ebb and Wednesday morning he iles in no worse condition than he was on Mon day evening, except for the steady di minution of his strength. Mgr. Bis leti, master of the chamber, visited the sick room just after midnight and on entering stated that the pontiff's condition was unchanged. A little later the pope feli into a sleep, which it has just heen announced is fairly tranquil, although the patient's respiration is troublesome.

Tuesday's raily was characteristically opposed to every medical theory and consisted in getting out of bed, on which two hours previously the pope himself had made all preparations for death.

Physicians Seem Perplexed.

Unsatisfied with this exhibition of vitality, he transacted private busi ness and received four cardinals, with whom he talked in an animated way. In fact, Pope Leo's record for Tuesday, little of which appeared in Tuesday night's official bulletin, would be incredible if it was not confirmed by the doctors and cardinals present in the sick chamber. None seem more > perplexed than the doctors themselves. Dr. Lapponi said frankly: "I can not imagine how the pope manages to keep alive."

According to the physicians, the pontiff may die at any moment, even in the midst of one of these extraordinary intervals when his mind and nody present a comparatively sound appearance.

All those around the patient have iong since ceased to hold definite opinions regarding the duration of the pontiff's existence. The slow progressive diminution of the strength of the august patient foretells the approaching end of the struggle with death, but the doctors will not venture to predict how near the end is.

GRADUALLY WEARING DOWN.

The Constant Relapses Are Telling on the Pope's Vitality.

Constant relapses they say, such as created alarm Tuesday, are gradually wearing down the pope's constitution, which seems immune from any specific disease. Most persons are inclined to the idea that the pope may go through perhaps two or three repetitions of Tuesday's ups and downs, till, as Dr. Rossini puts it, "his pulse stops forever."

Three causes may accelerate the end, viz.: Continued inability to take nourishment, which was exhibited Tuesday, sudden heart failure or the progression of pleura diseases, the latter is thought the least probable. ologically clear that it is a case of a very old man dying because he has lived his aiiotted time.

Ready For His Final Departure. The pope himself Tuesday afternoon ordered the four cardinais to be admitted and received them standing. He, who is supposed to be at the point of death, saying: "Please be seated." He recounted the impressive ceremony of the morning when he received the benediction of the Franciscan order. The cardinais informed him of the world-wide prayers for his life. Pope Leo answered that he was much gratified, but that he was ready for his final departure, concluding by saying: "God's will be done." Even more striking was the pope's interview with his secretary, Mgr. Angeli. His holiness sent for him, saying that he wished to see certain papers, which the secretary brought. Then, after a short explanation, Mgr. Angeli wished to get the pope's decision on the matter, but Pope Leo said: "Weli, weli, not today. We will do that some other

REPUBLICAN CONVENTION.

Fierce Struggle Between Candidates For Governor.

Louisville, Ky., July 15.-On account of the fierco struggle between two Louisville candidates for governor, the republican state convention which will be opened in Louisville Wednesday afternoon promises to be a thoroughly exciting one. The hotels have begun to fill up with the delegates, the full representation amounting to 2,270 votes in the convention. The situation in the raco for governor has apparently reached a phase where the nomination of a dark horse will follow the failure of the Belknap forces to win on the first two ballots. There aro three avowed candidates in the field: Col. Morris B. Belknap, a Louisvillo wholesale merchant; Hon. E. Augustus Willson, a Louisville lawyer, and Judge Clifton J. Pratt, state's attorney general.

The Belknap leaders are claiming the nomination of their candidate on the first ballot, his strength being estimated at from 900 to 1,200 votes.

The state central committee met Tuesday night and selected Maj. Wm. C. Owens to act as temporary chairman. John W. Yerkes has been offered the permanent chairmanship, but it is understood that he desires to head the committee on resolutions in order that Roosevelt's interests may be looked after. There is an element fairly respectable in numbers which opposes an endorsement of President Rooseveit's candidacy at this time, but as it is part of the Beiknap strength, it is not believed that the anti-administration men will jeopardize the chances of their candidate for governor by opposing Roosevelt resolutions. These resolutions in so far as they concern the tariff and trust question will be of the "stand pat" flavor, the sentiment in this regard being practically unanimous.

Yosemite Valley, Cal., July 15 .- the proceeds amounting to \$27. Mrs. Johns, of New York city, who has heen staying in the valley for a few days, was found Tuesday morning in a steep crevasse back of Sentinal Dome. Monday Mrs. Johns started from Giacier Point hotel to waik to Fissures, located some two miles from of the hotel, cautioned her against going too far without a guide and admonished her not to remain after daylight began to fail, as there was grave danger of losing the trail. Monday night Mrs. Johns did not return and Mrs. Lewis realized that something had happened. Early Tuesday morning the searching parties started out. one of them making a discovery that filled the searchers with horror. Far down one of the sides of the Sentinal fissure, whose crevasses drop down in some places for thousands of feet, suspended on a ledge that jutted out from the side of the narrow canon, the almost lifeless form of Mrs. Johns was found by Mr. Potter, a hotel clerk. She was too weak to speak, but was ahle by feeble signs to make Mr. Potter know that she still lived. After trying in vain to work his way down the mountain side to her, Mr. Potter was forced to the hotel for help.

The relief party found Mrs. Johns' position to be critical in the extreme. Her escape from a frightful death had been nothing less than miraculous. She had fallen a distance of 300 feet from the crevasse walls and had partially broken her fall by catching at juniper hushes and scrub trees. plunged. When a rope had been low- ets, the ascent was then made to the lofty and the ground and determine the hest course to pursue in getting Mrs. Johns from her perilous position. There, lodged upon a two foot ledge, with her clothing torn in fragments and toric event is brought to mind when at the inher flesh scratched and bruised, lay Mrs. Johns, weak from exhaustlon and lack of food and benumbed by the

frosty chill of the night. With difficulty the rope was securaiy tied around Mrs. Johns' waist and an effort made to help her to the rim above. This attempt proved futile because of Mrs. Johns' weight. By leaning over the abrupt precipice, Mr. Potter could discern another and larger ledge 100 feet below, from which was a sheer drop of 100 feet. He determined to try this plan of rescue. Giving the order to those above to lower the rope, Mr. Potter swung the inanimate form of Mrs. Johns out of the tiny strip of rock upon which she had who stated it was the most orderly and well-bebraced herself for 15 hours and into haved crowd, either large or small, that had the chasm beneath. By swinging the rope to and fro Mr. Potter was able to lodge the body of Mrs. Johns upon the larger ledge and then descended himself. Calling to one of the mountain guides ahove, Mr. Potter had him drop the rope to the ledge upon which all three were now resting. Then the two picked up Mrs. Johns and together they reached the rim above once more.

Mrs. Johns is suffering much from nervous shock, but as no bones were fractured she will recover.

Portsmouth, Eng., July 15.-With the reception given on hoard Rr. Adm. Cotton's flagship Kearsarge Tuesday afternoon the official visit of the American squadron to England terminated. The royal yacht Victoria aud Aibert will leave Portsmouth harbor Wednesday and receive the salutes of the warships as she steams out. On Friday when outside Spithead Adm. Cotton will transfer his flag to the Chicago and proceed with the San Francisco and Machias to Lisbon, while the Kearsarge will begin her speed trial across the Atlantic.

"Our reception in England has been most cordial and enthusiastic," said Rr. Adm. Cotton. "Nothing could exceed the courtesy extended to us on all sides, the king and prince of Wales, the officials of the government and officers of the army and navy to the people of London and Portsmouth. I have no doubt that the result of the visit of the American squadron will prove beneficial in the extreme, and that it will tend to strengthen the cordial relations which have long existed between the two countries."

Adm. Cotton is highly gratified at the receipt of a photograph from the prince of Wales bearing the inscriptlon "George, Portsmouth, July 13,

Were "Killed With Kindness."

Adm. Cotton and the other American officers gave Capt. Hemphill all the honor for the part played by the Kearsarge, whose presence contributed in such a remarkable degree to the success of the visit. "We have been killed with kindness," said Capt. Hemphili. In order to provide a satisfactory buoy for the Kearsarge the royal yacht moved the ship to another position, her place being occupied by Adm. Cotton's flagship.

By the route that Capt. Hemphill has selected for the speed trial the Kearsarge must steam 2,852 miles. On her way to Southampton she made 3,245 miles. She is thus expected to take less time on her impending voyage. Capt. Hemphill commanded the Buffalo, which established the record of 39 days on the run from New York to Manila, and the officers of the Kearsarge are satisfied that with the excelient coal supplies and the vessel's moderately clean bottom, the record for a battleshlp will be broken.

A UNITED FRONT,

The meeting of the Democratic State Central Committee at Frankfort Monday practically effected a settlement of the troubles that confronted the party and the outlook is much brighter than it was a week ago. Chairman Young bas been taught a wholesome lesson,-a lesson he ought to have learned long ago, and that is that he is not the "whole push" and can not run the party as he pleases. The campaign will be conducted by a splendid committee composed of party leaders from all sections of the State, and an old time victory is now confidently anticipated. Commenting on the meet- Ernest Hafer Attempted to Board a C. and ing of the committee at Frankfort Monday, the Lexington Herald has this to say:

This action clears the deck for efficient conduct of the campaign. It leaves some sores, but this was inevitable. How serious is the dissatisfaction in Louisville we have no means of knowing. And we presume the result in Louisville will depend largely on the action of the Republican convention. There will be some soreness here. But it ought to be only temporary and not dangerous to the success of the ticket in this city.

Electric vs. Steam Railways.

It will perhaps surprise some persons to learn that electric railways carry eight times as many passengers as steam railways carry. There are 987 electric railway companies, against 2,057 steam railway companies. The electric roads have 16,648 miles of line, against 497,237 miles of steam line. The former have 67,199 cars, against 1,550,833 cars on steam railways. The total capitalization of electric roads is \$2,145,606,645, against \$11,688,-147,091 for the steam roads. The earnings are \$241,584,697, against \$1,588,526,-037, and the net income \$30,955,233, against \$241,511,318. The electric roads carry 4,813,466,000 passengers a year, while the steam roads carry but 607,278,-121. The electric roads are ahead also in the number killed and injured, the killed numbering 1,216 and injured 47,-428, against a record of but 282 killed and 4,988 injured on the steam roads. The latter have over ten times the mileage of the electric roads, but the electric roads run chiefly through the crowded streets

RAINSI

The crop prospect of the county of Mason has been very greatly improved by the recent rains. The time is at hand now when prospective purchasers of farms and those desiring to sell should "get together." I am in position to sell your farm or to show you a list of very desirable ones ln case you contemplate making a purchase.

How would you like a part of the Dan Morgan place? The elegant home of Wm. R. Gill, with 425 acres of land? The Mrs. Belle Wells farm of 102 acres at Helena station? The Arthur Brough Farm of 100 acres near Fernleaf?

Fifty-two acres of land belonging to Mrs. Mary A. Boyd, adjoining Minerva.

Then there is the Joe Caldwell farm of eighty-two acres at Mayslick, a most desirable location.

Two hundred acres of land on the Laytham plke. No better land in the world than this.

Sixty-four acres of land near Washington, Ky.

A very desirable farm of less than 200 acres on the Fleming

One of the most attractive homes in the county, located on the Hill city pike.

The S. N. Robinson farm in Charlestown's Bottom.

Farm of 330 acres near Fernleaf, Ky. One of about the same size near Germantown.

The Stroud farm of 116 acres at Minerva?

Two small farms on the Fleming pike.

Two farms near Rectorville, Ky.

If you cannot make a selection from this list, call at my office and I can show you others that may be what you are looking for.

In the matter of city property, I have some very attractive bargains. Now is the time to buy as the chances are that the prices will advance rather than decline. It will be no trouble for me to go over my list with you and take you to inspect any piece of property which you may feel like investigating. Telephone me, write me or

Away Ahead of Schedule!

At the death of an eccentric citizen in an Ohio village it was learned that he himself had written out and entrusted to a marble cutter the legend that was to be graven on his tombstone. When the lettering was completed the villagers all went out to view the epitaph, and this is how it read:

I EXPECTED THIS, **BUT NOT SO SOON**

It is the same way with these 10c., 12½c. and 15c. Lawns that we are going to put on sale Friday at one price of 7½c. per yard, and the Mercerized 19c. Lawns at 12½c. per yard. We expected to sell what was left of them cheaper some time this summer, BUT NOT SO SOON. We have a reason. The goods and the prices are what you are after. Leave the reason to us.

BARKLEY'S

If in Need of a PUM

We advise you to buy either the I. X. L. Patent Galvanized Steel Chain Curb and Galvanized Steel Tubing, or the Cypress Rubber Bucket. Both are good ones and we sell lots of them. The I. X. L., being constructed entirely of steel, costs a little more than the other kind, but the difference in price is more than made up in satisfactory service and long life. It always pays to buy the best of everything, and Pumps are no exception to the general rule.

Some Points of Superiority of the I. X. L.

It does not make the water taste as wood tubing does, and, being made of the very best galvanized steel, will not rust, rot or accumulate filth, and leaves the water clear and pure. It is anti-freezing, as a small hole in the reservoir allows the water to run out. Only weighs a half pound to the foot, while water-soaked wood tubing weighs six.

With a good Gas Range you can cook your soup over a slow fire, which it needs, and your roast over a quick fire, and both at the same time. How can you do this anyother way than with a GAS RANGE?

Gas Ranges At Factory Cost Price!

Never was such another opportunity afforded you to obtain so much value for the same money. During the month of June the Gas Company will, if so desired, make a written agreement with any purchaser of a Gas Range to the effect, that, if on the first day of August, said purchaser shall have become dissatisfied with the use of their Range, either for the reason that it will not do the work as represented, or that it eosts too much to operate, then the Gas Company will take back the stove and refund any money paid upon its purchase price. The only thing to prevent you taking advantage of this offer is that the Ranges are sold quicker than they can be connected up, so if you are thinking of buying one, now is the time to decide. Over twenty installed during May and not a single complaint. For further particulars see the Gas Company and sample Ranges at Langfels & Co.'s.
